

MOKA is thrilled to be partnering with The Diatribe to give individuals an experience they will never forget and we need YOUR help to reach our goal!

With our MOKA/Diatribe Collaboration Fundraiser in full swing we are asking for your support. Your donation will go directly towards giving individuals served a new outlet in which to tell their stories, an exciting way to engage with the community, and a unique channel to have fun using their creative sides!

We are so confident that this experience will create positive change in our community that the MOKA Foundation, thanks to a generous donor, will be MATCHING all donations up to our goal of \$2,600 until May 18, 2021.

Please help us give individuals an experience like never before and visit www.moka.org/donate to lend your support.

May is National Mental Health Awareness Month

Three More Years!

We are pleased to announce that MOKA has received its 10th consecutive Three-Year Accreditation from international accrediting body, CARF International. This accreditation applies for the next three years to MOKA's Residential, Community Supports, Supported Employment, and Autism ABA programs. This accreditation decision represents the highest level of accreditation that can be given to an organization and shows MOKA's substantial conformance to the CARF standards.

Strengths shared in the CARF Accreditation Report include, but are not limited to:

- The noticeable culture of MOKA in terms of kindness/gentleness.
- MOKA's creative approach to researching alternative housing.
- The implementation of COVID-19 safety precautions throughout programs.
- Parent/guardian's high level of satisfaction with services received, including a number of them reporting significant improvements in the skills and independence levels of individuals served.
- The community integration programs focus on the strengths and goals of the individuals served.
- MOKA's program evaluation process and system.

Thank you to everyone who had a hand in making this survey a success! We could not do it without your commitment, compassion, and continuous support of *Seeing the Individual in Everyone*.

We are pleased to introduce you to MOKA's new Director of Process Improvement, Michael Gross.

Mike received his Bachelors degree in Business Administration from Western Governors University. He has a wealth of experience supporting process improvements and working with Information Technology (IT), most recently with Gentex and Meijer. With his knowledge of the field and a passion for our mission, Mike is confident improving process can help our organization's services and financial outlook. Please join us in welcoming Mike to the MOKA family.

Love what you do

Love where you work
